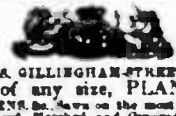
REDUCED PRICES.—EDWARD SIMMS late William Cleaver, of Wilton-road, Pimlico Basin, begs to acquaint Builders and the Trade that he has now on hand, at his Manufactory the first of its kind ever established, a very large assortment of Dry and well seasoned OAK and DEAL PLANED FLOORING BOARDS and MATCH BOARDING of all sorts, from 4 inch to 14 inch thick, planed to a parallel width and thickness, and at greatly Reduced Prices. Also, Timber, Deals, and Planks, Scantlings, Sash Sills, Mouldings prepared by Machinery, Lathis, &c.—Apply at E. SIMMS (late W. Cleaver's) Planing Manufactory, Wilton-road, Pimlico Basin.

A REDUCTION in the PRICE of FLOOR BOARDS.—ALFRED BOULING begs to inform the Trade and Consumers generally, that he has REDUCED the PRICE of his large assortment of Dry and well seasoned Planed and Matched Flooring Boards, planed to a parallel breadth and thickness, and fit for immediate use; also a variety of machine-prepared Mouldings, which are finished with great accuracy and attention to quality of workmanship.—South-wark Bridge Wharf, Bankside, and Old Barge Wharf, Upper Ground-street, Blackfriars.

GREAT REDUCTION IN THE PRICE OF FLOOR BOARDS AND MATCH BOARDING.—THOMAS ADAMS (late R. Dare), Mahogany and Timber Merchant, Bermondsey New-road, Southwark, near the Brickmakers' Arms, begs to inform his friends and the trade generally, that he has in stock a large assortment of the above goods, fit for immediate use, at prices which only require a trial to prove their decided cheapness. Also mouldings prepared by machinery and the hands, well executed, and in a superior manner; cut deals and scantling of every dimension; mahogany, cedar, rosewood, wainscot, elm, birch, oak, &c., in planks, boards, veneers, and logs; pannels, oak, and fir laths; wheelwrights' goods. All sawn and prepared goods exempt timber delivered free of expense; sawing charged at mill prices. Very extensive drying sheds.

SEASONED SPRUCE FLOORING, prepared by improved machinery, in a superior manner Three quarter inch thick, 10s 6d. per square; one inch ditto, 13s. ditto.—SAMUEL ARCHBUTT'S Sawing and Planing Mills, King's-road, Chelsea.



MUIR'S PATENT — PLANING MACHINE.

SAW MILLS, GILLINGHAM-STREET, PIMLICO.

TIMBER of any size, PLANK, DEALS, and BATTENS, &c., Sawn on the most approved principle, Boards, &c., Prepared, Mortised, and Grooved, by Muir's Patent Machinery. The Mills have all the advantages of barge-loading and unloading, being connected with the Thames by the Grosvenor Canal. Goods finished from the docks and carted home free of charge.

Address to HENRY SOUTHAM,
Saw Mills, Gillingham-street, Pimlico.

N.B. Estimates given for Sawing and Planing.

GENERAL WOOD-CUTTING COMPANY.—SAWING, PLANING, AND MOULDING MILLS, Belvidere-road, Lambeth, between Waterloo and Westminster Bridges.—SAWING and PLANING in all their branches executed with the greatest despatch and punctuality. A large Stock of seasoned and beautifully WORKED MOULDINGS, consisting of upwards of 100 different patterns kept constantly on hand; also an extensive assortment of dry prepared FLOORING BOARDS, of all qualities and at reasonable rates.

DESICCATED WOOD.—DAVISON and SYMINGTON'S PATENT.—Builders, Cabinet-makers, and others, will find it much to their advantage to patronize this new process of seasoning. The greenest wood can thus not only be converted in an incredibly short space of time, as a small cost, but is rendered stronger, entirely free from shrinkage, and in every respect better than wood treated in the ordinary way: thereby saving capital, interest of money, insurances, and all the other incon-veniences attending the keeping of a large stock.

The DESICCATING SAW MILLS and PLANING MILLS are situated at FLOOD'S BRIDGE, HAMMERSMITH, adjoining the Commercial and East Country Docks, from whence parties obtaining their material can have the same converted as required, and sent home fit for immediate use.—T. GIRLING, Manager.

For licenses to use the patent, scale of prices, or other information, address ANGUS JENNINGS, Secretary, Patent Desiccating Company, 61, Gracechurch-street, City.

TO ARCHITECTS, BUILDERS, UPHOLSTERERS, AND OTHERS.

WOOD CARVING done in the cheapest and best manner. Estimates given to any amount. Pulpits, reading desks, altar rails, stalls, and other church fittings supplied complete. Old carvings restored by J. STALON, Wood Carver and Manufacturer, 48, Berwick-street, Soho, London.

JORDAN'S PATENT MACHINE CARVING and MOULDING WORKS for WOOD and STONE, Belvidere-road, Lambeth, and 154, Strand.—TAYLOR, WILLIAMS, and JORDAN beg to call the attention of the building community to a new feature of their establishment, and, at the same time, to thank their numerous patrons and friends for the very liberal support they have lately experienced, which, they assure them and the public, it will be their constant endeavour to deserve, by giving their customers an increased share of the advantages accruing from the constant improvements in the machinery which they have been so successful in applying to the production of the most intricate carving in Oak and other foreign woods, and in statuary marble.

T., W., and J. particularly solicit the attention of architects and builders to the fact that, by the use of this machinery, a very large carving, both of time and money, is effected,—so great, indeed, that in many instances they can deliver a well-finished article in Caen stone for less money than it can be obtained in cement, while their wood-carving will, in some cases, be found to come into close competition with the best kinds of composition ornament.—For prices and estimates apply at the Strand.

TESTIMONIAL FROM CHARLES BARRY, ESQ.

"Westminster, May 16th, 1848.

"Gentlemen,—In reply to your letter requesting my opinion of your patent Carving Machinery, I have much pleasure in stating, from an experience of more than two years, its application to the production of the wood carvings of the Houses of Peers, and other apartments of the New Palace, at Westminster, that I am enabled to make the most favourable report concerning it, and to add that it has more than justified the favourable terms in which I recommended it in 1845 to her Majesty's Commissioners of Woods and Works for adoption.—I remain, Gentlemen, yours faithfully,

"CHARLES BARRY."

Messrs. Taylor, Williams, and Jordan."

PAPER-HANGINGS.—At E. T. ARCHER'S Manufactory for English and Warehouse for English and French Paper hangings, from One Penny per yard, to the most costly pannelled decorations. RICHARD A. C. LOADER, 94, PAVEMENT, FINSBURY.

GREAVES'S BLUE LIAS LIME, WARWICKSHIRE CEMENT, and WARWICKSHIRE IMPROVED CEMENT, at BUTT'S, and T. W. GLADDISH'S, Pedlar's Acre Wharf, Paddington; and T. W. GLADDISH, Pedlar's Acre Wharf, Paddington.—The prompt large rates of transit enable the proprietor to send to any part of the kingdom at very moderate prices. From his works, Southam, Warwickshire.

ROMAN CEMENT, made according to the specification of Parker's Patent, may be had genuine of J. M. BLANCHFIELD (late Wyatt, Parker, and Co.), Waterloo Dock Wharf, Commercial-road, Lambeth, No. 1, Ironmaster Wharf, Paddington, and at the Manufactory, Mill Wall, Poplar. Also Plaster, Mastic, Terras, Bricks, Tiles, &c.

VEINED AND SICILIAN MARBLE in Scantlings and Slabs of the first quality, just imported.

PARIAN CEMENT, for internal stucco, instead of common plastering, may be painted and papered within twenty hours of its application to the bare walls, and by the use of which, rooms may be rendered habitable before the materials commonly adopted would begin to dry. It is worked without the slightest difficulty, the labour being easier and less expensive than with any other stucco whatever. A finer quality is also prepared for ornamental plastering, for ceramistic painting, &c. &c.—Specimens of which may be seen at the works of the Patentees, CHAS. FRANCIS and SONS, Nine Elms, London.

KEENE'S and PARIAN CEMENTS, for internal stucco, are employed very advantageously in place of wood for skirtings, architraves, and panel mouldings, and for in-door flooring, instead of stone. The peculiar properties of PARIAN CEMENT (of its being painted or papered within a few hours of its application), and thus render it an important substitute for common plastering in those cases where expedition and beauty of finish are essential.—J. B. WHITE and SONS, Millbank-street, Westminster, Patentees of KEENE'S Cement, Licensees of PARIAN Cement.

PORTLAND CEMENT, as manufactured by J. B. WHITE and SONS, possesses all the properties of the best Roman Cement, but has the advantage over that material of quickly resisting frost; and when used as a stucco it does not vegetate or turn green in damp situations, and requires no colouring. Employed as an hydraulic mortar for brickwork, it carries fear to five measures of sand to one of cement, and is proved by trial to become harder and stronger in these proportions than Roman Cement with but one measure of sand. This superior cementing power, combined with its eminently hydraulic properties, point it out as the fittest material for building sea and embankment walls, the lining of reservoirs, cisterns, and baths, and for all those purposes where strength and a perfect resistance to water are required.

Manufactories—J. B. WHITE and SON, Millbank-street, Westminster, and 16, Steel-street, Liverpool.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee.—Messrs. ROBINS, ASPDIN, and Co. request reference to No. 2235, page 497; and also Nos. 2254 and 2255, pages 943 and 951 of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement, and is not liable, as others are, to crack, or have its set in any way affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland yard, Whitehall; also by their Agent at the Depôt, 1, Back Gorse, Liverpool.

MARTIN'S PATENT FIRE-PROOF and ORNAMENTAL CEMENT.—REDUCTION of PRICE.—The Patentees beg to inform their Friends and the Public that they have made arrangements which enable them to offer this invaluable cement at a considerably reduced price. It has now been before the public for upwards of two years, and has obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. The Patentees, however, feel called upon to observe, that by its use—from the greater amount of surface which a given quantity will cover, and the small amount of labour required in working it, a saving of 25 to 30 per cent. is effected as compared with other cements for internal use. Specimens shewing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement in any quantity obtained of the Patentees, Messrs. STEVENS and SON, at 4th, Plaster and Cement Works, 126, Drury-lane, London.—Agent for Liverpool,

Mr. GEORGE NEWTON, No. 6, Lawton-street, Bold-street.

JOHN'S and Co. PATENT STUCCO CEMENT and PAINT.—GREAT REDUCTION of PRICE.—The Patentees beg to inform the trade and the public generally, that in order to induce a more extended adoption of these excellent materials, and to bring them into direct competition with the inferior articles in common use, they have determined to reduce the price nearly 25 per cent., confidently trusting to a mutually advantageous result. These materials, for their beauty, durability, imperviousness, perfect resistance to frost or heat, and great cheapness, fully justify the confidence reposed in them, as shown by numerous testimonials. For INTERIOR SURFACES this cement possesses the following valuable properties: having no caustic qualities, it may be painted on or papered within a few days after its application, and a new house may thus be rendered habitable without any delay. It never blisters, cracks, or vegetates; very soon becomes as hard as stone, and may be washed with a brush and water.—Prospectuses, specimens, and every information connected with its use, price, &c., may be obtained from the sole agent, PHILIP HARE, at the Warehouse, 28, Steel-yard, Upper Thames-street.

TO PLANTERERS, BUILDERS, &c.

JOHN'S and Co. PATENT PERMANENT STUCCO WASH.—The attention of the trade is requested to this permanent wash, which cannot be equalled in its properties of beauty and durability for exterior stucco or brick, and being a non-absorbent, is admirably adapted for interior surfaces, for railway stations, union workhouses, schools, asylums, barracks, stables, prisons, &c. It will not wash off, may be stained to any colour, and 1 cwt. will cover 200 yards.—Price 10s. per cwt. Sole agent, PHILIP HARE, 28, Steel-yard, Upper Thames-street.

EMERSON'S PATENT LIQUID CEMENT is ready for use, is simple in its application, and only ONE EIGHTH the cost of oil paint; for beauty it is pre-eminent over all other materials used for the fronts of houses, giving the exact appearance of FINE CUT STONE; can be used at once on fresh Roman cement or other plastering; is particularly calculated for country houses, villas, or gate entrances that have become soiled or dingy, which can be beautified in any weather, at a trifling cost.—Sold in casks of 1, 2, and 3 cwt., at 8s., 12s. and 24s. each.

PATENT MINERAL PAINT.

Invaluable as a coating for SHIPS' SIDES AND BOTTOMS all kinds of WOOD or METAL work, roofing felts, leaky roofs, spouts and gutters, doors, sheds, railing, and all kinds of out-door work, and being perfectly waterproof, will preserve their surfaces from atmospheric influence and decay,—requires no preparation, and will dry in a few hours.—Sold in casks, 9 to 30 gallons. Brilliant Black, 7s. Rich Brown, 8s. 6d. per gallon.

BELL, LEAR, and Co., No. 14, Bearing lane, Cheapside.

TODD'S PATENT PROTOXIDE PAINT, at a very considerable REDUCTION of PRICE.—This article is extensively used by the principal Railway and Gas Companies, and by Builders and others for painting stucco. It prevents iron from rusting, wood from decay, masonry from damp, and the hottest sun has no effect upon it.—Manufactured by CHARLES FRANCIS and SONS, Cement Works, Nine Elms, London.
